

# Career Open Evening

## Challenging today. Reinventing tomorrow.

Are you interested to learn more about the careers of engineers, environmentalists, ecologists and other roles within Jacobs? Meet our teams and discover both the university and apprenticeship routes into the industry.

Unlock your purpose.

### What's on

- Demonstrations and interactive activities on the work we get involved in at Jacobs
- Presentations on what it's like to be a graduate or apprentice at Jacobs
- A chance to learn about what a career in the industry could mean for you.

### Aimed at

- Current students aged 13+ at school or university considering future career options
- Students interested in Engineering, Environment, IT, Geography, Science, Technology, Maths, or Design
- Those considering apprenticeships
- Parents and teachers also welcome

### Industry focus areas

Cutting-edge manufacturing

Mission critical outcomes

Operational advancement

Resilient environments

Scientific discovery

Thriving cities
