

## Data Retention Policy

This policy sets out the minimum periods of retention of the personal data that we process. Schools will generally seek to balance the benefits of keeping detailed and complete records – for the purposes of good practice, archives or general reference – with practical considerations of storage, space and accessibility. However, there are legal considerations in respect of retention of records and documents which must be borne in mind. These include:

- Statutory duties and government guidance relating to schools, including for safeguarding;
- Disclosure requirements for potential future litigation;
- Contractual obligations;
- The law of confidentiality and privacy; and
- The General Data Protection Regulations and associated legislation.

These will inform not only minimum and maximum retention periods, but also what to keep and who should be able to access it.

### Child protection and document retention

In the light of the Independent Inquiry into Child Sexual Abuse and various high-profile safeguarding cases, all independent schools are aware of the emphasis currently being placed on long-term, lifetime or even indefinite keeping of full records related to incident reporting. Regardless of suggested retention timescales set out below, Leighton Park School may at its discretion extend this rule to any and/or all personnel and student files on a 'safety first' basis.

These guidelines have been drafted in full awareness of these considerations. Data protection issues should never put child safety at risk, nor take precedence over the general prevention and processing of safeguarding

### Meaning of "Record"

In these guidelines, "record" means any document or item of data which contains evidence or information relating to the school, its staff or students. Some of this material, but not all, will contain personal data of individuals as defined in the GDPR.

Many, if not most, new and recent records will be created, received and stored electronically. Others (such as Certificates, Registers, or older records) will be original paper documents. The format of the record is less important than its contents and the purpose for keeping it.

Both paper and digital records will be stored securely, and all appropriate measures taken to ensure the security of the data at all times.

### **Secure disposal of documents**

When data is to be destroyed, this may be carried out by an appropriately licensed third party.

For confidential, sensitive or personal information to be considered securely disposed of, it must be in a condition where it cannot either be read or reconstructed. Skips and 'regular' waste disposal will not be considered secure.

Paper records will be shredded using a cross-cutting shredder; CDs / DVDs / diskettes will be cut into pieces. Hard-copy images, AV recordings and hard disks will be dismantled and destroyed.

Where third party disposal experts are used, they will be subject to adequate contractual obligations to the school to process and dispose of the information confidentially and securely.

### **Timescales for retention**

The timescales below are given as a guide for minimum retention periods. Figures given are not intended as a substitute to exercising thought and judgment, or taking specific advice, depending on the circumstances.

Indeed, the essence of this guidance can be boiled down to the necessity of exercising thought and judgment – practical considerations mean that case-by-case 'pruning' of records may be impossible. It is therefore accepted that sometimes a more systemic or broad-brush approach is necessary.
